

# Print fra bibliotekets pc

## Print from a library pc

1

Find en ledig biblioteks pc  
*Find available library pc*

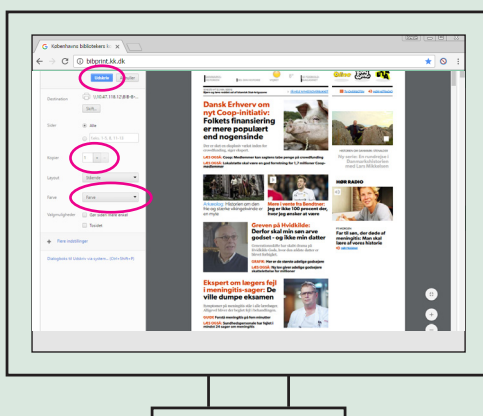

Find en ledig pc på biblioteket og åben det du vil printe.  
*Find available pc in the library and open the documents you want to print.*

Find dine dokumenter frem fra en browser eller din USB nøgle.  
*Use a browser or your USB key to find your documents.*

2

Find det, du vil udskrive  
*Find what you want to print*

Tryk ctrl + P på tastaturet for at printe. Vælg evt. antal kopier og papirstørrelse og tryk "Udskriv".  
*Press ctrl + P on the keyboard to print. In the settings choose number of pages and paper size and press "Udskriv".*

3

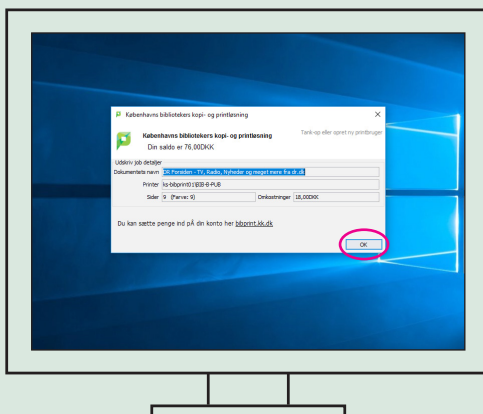

Indtast loginoplysninger  
*Enter user information*

Log på med brugernavn og password for at udskrive.  
*Login with username and password to start printing.*

4

Detaljer om det du printer  
*Print job details*

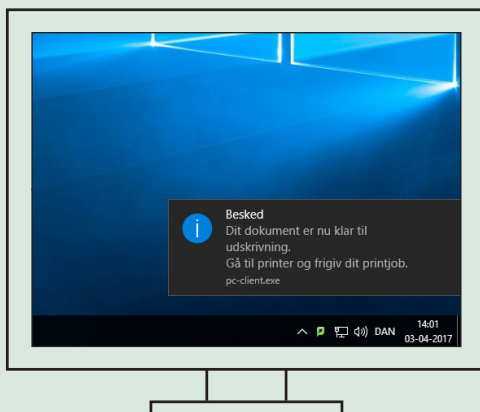

Her får du pris og antal, på det du printer. Tryk "Ok" for at acceptere.  
*Here you get an overview of your print job with price and number of pages. To accept press "Ok".*

Vend / Turn

5

Dit print er  
nu klar  
*Your print is  
now ready*

Dit print er klar til at blive frigivet på printer eller kopimaskine når denne besked vises.
